# YOUR HORIZONS ARE GOING TO CHANGE FOREVER

The X-ADV is an innovative crossover design that blends city convenience with rugged adventure capabilities to offer a totally new breed of machine. Equipped with a 745cc twin-cylinder engine, it delivers lowdown punch right up through the mid-range, with smart and instant acceleration provided by the Dual Clutch Transmission (DCT). There's also a 35kW version available for A2 Licence holders.

Day-to-day riding is made easy thanks to the large 21L under-seat storage, five-way adjustable screen and Smart Key system. When you break out of the city and hit the open road, the tough chassis, long-travel suspension and four-piston radial-mount front brakes really come into their own. Add in Honda Selectable Torque Control (HSTC) to maintain rear wheel traction, plus pioneering G-Mode for riding over loose terrain and you have a motorcycle designed to roam way beyond the city limits.

**FORZA 300**

## FREED FROM CONSTRAINTS

The Forza 300 combines the best of both worlds – premium GT comfort and equipment with sports handling ability – but is reborn smaller, significantly lighter and wearing sharp, aerodynamic new style. An electrically operated screen adjusts through 140mm (controlled by a button on the left handlebar) providing a sense of freedom when lowered, and extended wind protection raised.

There's room for 2 full-face helmets under the seat and it's possible to tailor the luggage compartment's internal space to suit specific needs; the lockable inner fairing pocket houses an ACC charging socket. The attractive, easy to read analogue speedometer and rev-counter flank a digital display which shows (among other information) remaining tank range, ambient temperature and average mpg. Full LED lighting adds a striking visual presence, the Smart Key everyday convenience.

Powerful and entertaining performance is guaranteed from the Forza 300's engine – accelerating away from the lights, cutting through busy traffic and out on the open highway. It also delivers excellent fuel economy and low running costs. Honda Selectable Torque Control (HSTC) manages rear wheel grip safely in slippery conditions, for extra peace of mind.

# HUNGER FOR MORE

The Forza 125 proves more is more. It mixes sports style with agile handling and adds GT levels of comfort and equipment. And it's powered by an engine that delivers top-of-the-class performance around the city – or out on the open road. Environmentally friendly Idle Stop technology improves fuel efficiency and lowers running costs; one fill-up of the 11.5L fuel tank can cover nearly 500km.

Fully extended the electric screen offers superb wind protection; at the touch of a button it lowers to open up a sense of freedom. There's space for 2 full-face helmets under the seat, the compartment can be tailored to suit use and the lockable inner fairing pocket houses an ACC charging socket. The smart analogue speedometer and rev-counter flank a digital display which shows (among other information) remaining tank range, ambient temperature and average mpg.

Full LED lighting adds visible, premium appeal and, for ultimate day-to-day riding convenience simply put the Smart Key in a pocket and go, the Forza 125 is ready! Two channel ABS ensures safe, consistent stopping on slippery surfaces.

300i

# A MODERN CLASSIC

Whether you want sophisticated style, the confidence to tackle cobbled city streets or the comfort and performance to cut through congested urban highways, at work or at leisure, the SH300i is made by Honda to deliver everything you need and more.

In such a fast-paced world, the Honda SH300i stands up to the challenge with a strong-performing 279cc liquid-cooled 4-valve single cylinder engine, with Honda Selectable Torque Control (HSTC) to maintain rear wheel traction in wet or slippery conditions. Plus, with intelligent low-friction technology built in and Euro 4 compliance, it's a power unit that delivers lower emissions and helps cut the cost of your commute.

But performance alone isn't enough. The compact bodywork, with flat-floored step-through design, sits on large 16-inch front and rear wheels providing maximum stability for both the city and the highway. The SH300i also features LED headlight and taillight adding to the modern design and delivering improved visibility at night. There's also enough underseat storage for a full-face helmet and a waterproof or lock, plus the Smart Key – which operates the ignition from your pocket – also now controls locking/unlocking of the optional top box.

# YOU ALWAYS NOTICE THE TOP OF THE CLASS

Living in the city, we know your life moves fast. You need to stay ahead. By instinct and design so does our beautiful, brand new SH125i. It stays out front thanks to smooth, freshly sculpted style wrapping a more powerful, more fuel efficient (and with EURO5 compliance) liquid-cooled 4V four-stroke eSP+ engine. And for peace of mind Honda Selectable Torque Control (HSTC) now manages rear tyre grip in all conditions. Thanks to a redesigned frame there's 50% extra room, meaning you can store a full-face helmet with plenty of additional space and we've optimised the rear suspension, increasing ride comfort and control.

While we've added full LED lighting, integrated USB charging socket and super-sharp LCD dash some things we've left alone; like the stability of front and rear 16-inch wheels, the convenience of a truly flat floor and Honda Smart Key that operates the ignition, seat, filler cap and steering lock from your pocket. It's in our DNA to improve things. It's what we do. And we've engineered improvements to the SH125i in every single way. Which, if we're honest, we think you'll notice.

# Super Cub

## EASY. SIMPLE. STYLE.

The Super Cub's simple appeals – ease of use, reliability and frugality – have never gone out of fashion. It's why over 100 million have been made over the last 60 years. And also why, for 2019 it's been reborn; the new Super Cub C125 is a stylish evolution of a revolutionary machine that's worked so hard for so many over the last six decades, and ready for life in a busy European city.

The riding position is straight-backed and gives excellent visibility, the seat uses high-density urethane foam for comfort and the handlebars are rubber-mounted. Full LED lighting is a premium addition, as is the Honda Smart Key which controls the ignition and immobiliser from the rider's pocket. The tubular steel frame, telescopic forks, twin rear shocks and cast aluminium 17-inch wheels rolling tubeless tyres ensure confident handling while its robust 125cc air-cooled, fuel-injected engine generates a smooth and linear power delivery. It's also fuel efficient, returning 66.7km/l (WMTC mode). And just like the original an automatic centrifugal clutch makes operating the four-speed gearbox twist-and-go simple.

# BRING THE CITY CLOSER

Its striking looks have evolved, with organic surfaces and elegantly drawn curves flowing around its oh-so comfortable riding position but the PCX125 has also been engineered to deliver an even more perfect urban ride – it accelerates faster away from a standstill and returns even greater fuel efficiency, to further lower running costs.

There's underseat storage for 1 full-face helmet (and more) plus an ACC socket in the glove compartment, to charge what matters. All lighting is premium LED, giving a unique frontal light signature and great all-round visibility; the centrally mounted inverse LCD dash is crisp, clear and easy to read.

Plus the PCX125, with its tough steel frame, long travel front suspension, heavy-duty rear shock absorbers and wide tyres – plus ABS braking – is built ready for city life, and to stand the test of time. Also good for the city is the environmentally-friendly Idle Stop technology, which is quiet and saves fuel.

# ENJOY THE CITY

Whether you're heading off to work or just riding into town, the Vision always offers a thrilling ride. The air-cooled four-stroke 108cc enhanced Smart Power (eSP) engine, equipped with Idling Stop, delivers a great balance of performance and efficient fuel economy. And its low and mid-range torque – where it's most needed for city riding – keeps you flowing with traffic.

The Vision is built to be nimble and easy to ride. Its tubular steel underbone frame provides rigidity and up front the 35mm diameter forks improve every aspect of handling and ride comfort. Smart bodywork offers contemporary styling and, with a generous storage compartment under the seat, there is enough space for your gym bag, backpack or even your shopping. More floor space accompanied with a roomy riding position means two passengers can ride comfortably through the city with ease. Reliable, affordable and stylish. It's the smart way to beat the traffic and enjoy the city.

# HONDA TECHNOLOGY

## ANTI-LOCK BRAKING SYSTEM

Reduces braking pressure by monitoring the wheel speed, preventing the wheels from locking up.

## COMBINED BRAKE SYSTEM

Actuates both front and rear brakes when the rear brake pedal (or lever) is engaged, for a smooth and confident balance of braking control.

## DUAL CLUTCH TRANSMISSION

Combines the riding enjoyment of a manual transmission with the convenience of an automatic, delivering enhanced comfort and sporty performance.

4

EURO

## EURO 4

Complies with EURO 4 emissions regulations.

5

EURO

## EURO 5

Complies with EURO 4 emissions regulations.

## HONDA EVOLUTIONAL CATALYSING SYSTEM

Oxygen-sensing system maintains an optimal air/fuel mixture for the most effective catalytic reduction of exhaust emissions.

## HONDA IGNITION SECURITY SYSTEM

Only allows the bike to be started by its original encoded keys to effectively protect against theft.

## HELMET STORAGE

Large storage space for 2 full-face helmets.

## HELMET STORAGE

Large storage space for a full-face helmet.

## ELECTRIC WINDSCREEN

Offers wind and weather protection raised and a sense of freedom when lowered.

## LCD

Sharp and clear information and warning lights presented in a rich and easy to read display

Honda has developed and applied many innovative technologies for its motorcycle range, designed to have the greatest possible benefit for you and the world around you.

## IDLE STOP SYSTEM

Automatically stops the engine running after three seconds at idle and restarts it instantly with a twist of the throttle, helping to reduce emissions and fuel consumption.

## USB CHARGING

We've subtly integrated a USB socket into the under-seat storage compartment. No need for an adaptor; simply connect your device's lead, plug it in, and go.

## LED LIGHTS

Brighter and more energy efficient than traditional bulbs, with no time delay and a longer life.

## PROGRAMMED FUEL INJECTION

Map-type computerised system maintains strong power and responsive performance in all conditions.

## SHOW A DUAL BENDING VALVE

Showa Dual Bending Valve forks improve ride comfort and handling by delivering proportional rebound damping with firmer compression damping.

## SMART KEY

This innovative technology improves both convenience and security. As long as your key is in your pocket or bag, you can release the seat and start the engine with the press of a button.

## V-MATIC TRANSMISSION

Belt-converter transmission with advanced three-stage operation provides seamless shifting throughout a wide range of speeds delivered with twist-and-go ease.

## G MODE

Triggered by a switch on the instrument panel, G Mode improves traction and machine control by reducing clutch slip during gear changes.

## PRO-LINK® REAR SUSPENSION

Monoshock rear suspension utilises a triangular linkage system to progressively increase damping force through range of rear swingarm movement.

## HONDA SELECTABLE TORQUE CONTROL

If the Honda Selectable Torque Control (HSTC) system senses an imminent loss of rear wheel traction it reduces torque to allow the tyre to grip.

## 17 INCH WHEEL

Large diameter front wheel give extra stability over rough or cobbled city streets and therefore confident, reassuring handling.

# HONDA DCT DUAL CLUTCH TRANSMISSION

DCT is an automated clutch and shift operation system that retains the direct acceleration feel of a manual transmission with the ease of use of an automatic. DCT allows the rider to focus on accelerating, turning and braking, rather than gear shifting. This increases confidence and control for the rider. DCT technology takes the joy of riding and controlling your machine to the next level.

## FREEDOM

Ride without concerning yourself with the clutch lever and shift pedal, for smooth and seamless gear changes.

## CONTROL

### 2 AUTOMATIC MODES

S -Sport- For a more relaxed driving style.  
D -Drive- For relaxed city and highway driving.

### 1 MANUAL SELECT MODE

MT, with change of gear via left command.

### NEW G SWITCH

Improves rear wheel traction when off-road.

# DREAMS REALLY DO COME TRUE

Soichiro Honda said,

*'We only have one future, and it will be made of our dreams, if we have the courage to challenge convention.'*

Honda's philosophy in dreaming of a better world for people catalysed the invention of the ASIMO, HondaJet, NSX and the legendary Africa Twin. Dreams can be powerful, they push you to achieve more, to explore new ideas, new technologies and uncover new ways of solving problems. It takes independent thinking and audacity to pursue dreams. It also takes passion and innovation to never allow the dream to die and to shape them into a reality for the modern-day world.

The specific details of this brochure do not apply to any particular product supplied or offered for sale. Manufacturers reserve the right to vary specifications, including colours, with or without notice at such times in such manner as deemed appropriate. Major as well as minor changes may be involved. Every effort, however, is made to ensure the accuracy of the particulars contained in this brochure. Consult your Dealer for details regarding the specifications of any featured product. This publication shall not constitute - under any circumstances whatsoever - an offer by the Company to any individual. All sales are made by the Distributor or Dealer subject to and with the benefit of the standard Conditions of Sale and Warranty provided by the Distributor or Dealer, copies of which may be obtained upon request. While efforts are made to ensure specification accuracy, brochures are prepared and printed several months in advance of distribution and consequently cannot always immediately reflect either changes in specification or in some isolated cases the provision of a particular feature. Customers are always advised to discuss specific details with the supplying Dealer, especially if a selection is dependent upon one of the features advertised. Please contact your local dealer for information and specifications. Please note that the fuel consumption figures provided are results obtained by Honda under standardised testing conditions prescribed by WMTC. Tests are conducted on a rolling road using a standard version of the vehicle with only one rider and no additional optional equipment. Actual fuel consumption may vary depending on how you ride, how you maintain your vehicle, weather, road conditions, tyre pressure, installation of accessories, cargo, rider and passenger weight, and other factors. You accept that if you do go ahead and make a purchase or enter into any kind of transaction, whether for payment or not, you did so entirely in reliance on your own skill and judgement and not on that of anyone else.

**RIDE WITH STYLE** Read the owner's manual thoroughly. Get to know your machine and its capabilities. Concentration assists anticipation. Observe other road users' movements. Brake in plenty of time. Always wear a helmet and quality kit, ride fit and NEVER after drinking alcohol. Good roadcraft and courtesy identify the skilled and stylish rider. Honda endorse the law that all helmet visors must comply with BS 4110. Visors that transmit less than 50% of visible light cannot legally be used on the road.
